

# IVÁN GONZÁLEZ ACUÑA

Software Engineer with more than 3 years of experience. Mainly focused in the Backend side using Golang or Python, but also in Frontend with technologies like Typescript and React.

## SKILLS

GOLANG

TYPESCRIPT / JAVASCRIPT

PYTHON

DOCKER

JAVA

Knowledge in DB management, Kibana and Grafana for data visualization, Kubernetes for container deployment or Vault for secret management. Due to my last project, I also gained a lot of experience in node.js and React. Also good knowledge in Git and the GitFlow.

Usage knowledge in team management tools such as Confluence, Jira, Slack, Trello or Teams.

## LANGUAGES

SPANISH	NATIVE
ENGLISH	B2
GERMAN	A1.2

## PROFESSIONAL EXPERIENCE

### JUNIOR SOFTWARE ENGINEER

SPREAD GROUP (LEIPZIG, GERMANY), DEC 2021 UNTIL TODAY

- Working as part of the Delivery Engineering Team (OpsDev)
- My main programming language was Golang, which I used to create some new internal tools to improve the daily life of our developers.
- Developed an internal software catalog using Typescript & React, based in Backstage
- Gained experience on infrastructure tools such as Kubernetes

### RESEARCH AND DEVELOPMENT

UNIVERSITY OF VIGO (VIGO, SPAIN), FEB 2020 TO NOV 2021

- Started my career with Golang by doing minor tasks and bug fixes
- Started a big migration using an hexagonal architecture
- Switched to another project, focused on signal processing, using Python

### INTERNSHIP

MUUTECH MONITORING SOLUTIONS (VIGO, SPAIN), JUN 2019 TO JUL 2019

- Research and develop of an anomaly detector for industrial environments
- Learned a lot about Artificial Intelligence and Machine Learning
- Used Python and R to develop the algorithm

## ACADEMIC BACKGROUND

### TELECOMMUNICATION ENGINEERING

UNIVERSITY OF VIGO (VIGO, SPAIN), 2016 TO 2020

- I did the specialization in Telematics
- My main programming languages were Java & C

### SOFTWARE DEVELOPMENT

OULU UNIVERISTY OF APPLIED SCIENCES (OULU, FINLAND), 2019

- Semester abroad with an Erasmus+ scholarship
- I learned about app and web development (Java/Kotlin, Swift & Angular)
